6 Activities

1) JMTA conducts a survey of the latest move in meat import to Japan as a project funded by Agriculture & Livestock Industries Corporation. JMTA also keeps up research on meat supply and demand in Japan and abroad, and works on any problem of meat safety. It disseminates the above information to member companies.

2) JMTA works with related government offices, embassies in Japan and other organizations.

3) JMTA exchanges information with overseas organizations of meat industry.
